

MAXWELL
intelligent interface

INTELLIPACK[®]
Foam-in-Place Systems with a High IQ™

MEET 'MAXWELL'

Maxwell is the newest 'smart' feature available on the **SmartBagger foam-in-bag machine** that empowers the user with the touch of a finger. The intelligent interface has an intuitive touchscreen design that maximizes productivity and the overall wellness of your packaging operation.

Maxwell offers SmartBagger users a personalized customer experience:

- Personalize the touchscreen interface to meet diverse needs
- Customize access levels (operator, manager, and service techs)
- Add photos/videos for training or troubleshooting
- Establish a connection link from one machine to other machines to quickly disseminate new packing procedures or product specifications
- Generate detailed consumption reporting (from machine or multiple 'linked' machines)
- Remotely load and extract data
- Set SMART operation modes:
 - "Go to sleep" and "wake up" modes for minimal operator interaction
 - "Self cleaning" mode allows the operator to schedule cleaning, extending the cycle life of wearable parts

In addition to Maxwell, the SmartBagger is equipped with new features including:

- Virtually unlimited barcoding ability!
- Connects to wireless and cellular networks
- Preset "sheets" for unlimited number of preset bag sizes
- Easy to sort data includes a description and drop down list
- Agile bag control to quickly produce custom bag sizes on demand
- Customize tube fill and length of SmartTrax foam cylinders

Meet Maxwell & empower your packaging operation!
