

Packmate® compact paper packaging system

Easypack® by Pregis

Easypack® by Pregis paper packaging solutions can help you protect against damage, deliver an eco-friendly, cost effective package to your customers while increasing the productivity of your packaging operation.

- Consistent padded paper quality creates a positive customer experience
- Reliable equipment is low maintenance or 'bullet proof' to maximize uptime (no jamming!)
- Simple to load and use. Just load & go in 30 seconds or less to maximize productivity
- Safe for employees. Full safety lockouts means zero injuries. Waist high roll loading for improved worker ergonomics
- Sustainability: green protection for your goods – 100% recycled, recyclable and biodegradable paper

The Packmate system can produce single or 2 ply paper cushions. The machine is sleek and compact to fit any production environment, yet powerful enough to produce an extremely high quality paper cushion. The small footprint is a perfect solution for multi-station packing needs.

Packmate® compact paper system

- **Reliable protective solution for light and medium weight products in small shipping boxes.**
- Converts paper up to 60 times its original volume
- Compact footprint frees up valuable space
