

Packsolo™ single ply paper packaging system

Easypack® by Pregis

Easypack® by Pregis paper packaging solutions can help you protect against damage, deliver an eco-friendly, cost effective package to your customers while increasing the productivity of your packaging operation.

- Consistent padded paper quality creates a positive customer experience
- Reliable equipment is low maintenance or 'bullet proof' to maximize uptime (no jamming!)
- Simple to load and use. Just load & go in 30 seconds or less to maximize productivity
- Safe for employees. Full safety lockouts means zero injuries. Waist high roll loading for improved worker ergonomics
- Sustainability: green protection for your goods – 100% recycled, recyclable and biodegradable paper

The Packsolo™ machine is the ultimate single ply paper cushioning system producing lightweight cushions that are outstanding at providing total product protection, preventing damage during transportation. The paper cushions can be utilized to **wrap items for protection, block & brace or form coils to support heavier items.**

Packsolo™ paper system

- Produces ultra-strong cushions for use in **medium to large shipping boxes**
- Converts paper up to 80 times its original volume
- Fast, convenient packaging on demand
- Automatic, semi-automatic or foot pedal operation
- Horizontal or custom configuration

| | |
|---|---------------------------|
