

EASYPACK[®] QUANTUM[™] XF

PAPER PACKAGING SYSTEMS

The Quantum XF fills the void for a user-friendly paper system with unmatched reliability in higher volume operations.

ADVANCED FEATURES INCLUDE:

POWER TEAR ASSIST

- The most advanced solution on the market
- Bladeless tear assist mechanism keeps operators safe
- Allows the operator to set machine to dispense paper of varying lengths
- Controls paper consumption
- Insures the proper amount of protection
- Simplifies employee training

OPTIONAL MULTI-STACK ACCESSORY

- Multiple rolls of paper supply Easypack Quantum

SAME BENEFITS AS THE ORIGINAL QUANTUM:

- Patented floating-head design minimizes paper jams for unmatched reliability
- Optimal ergonomics: simple to load and operate
- Industry leading speed of 150" per second of output
- Durable construction: made in the USA from long lasting parts
- Environmentally responsible
- Compact, versatile footprint: floor stand, table mount or custom installation
- Multiple paper options: Standard or Heavy Duty Renew 100% recycled paper or RC kraft paper containing recycled content

EASY TO LOAD AND OPERATE

Fast, durable and simple to operate, the Quantum machines convert rolls of paper into tightly crumpled paper cushions for void fill, cushioning, wrapping or blocking and bracing purposes.
