COHESIVE PACKAGING:

SG PolyMask manufactures the most extensive line of cohesive packaging products in the industry. Cohesive products are pressure sensitive materials used to create strong, secure and shippable packages. Cohesive (also known as cold seal) allows you to easily create your packages simply by hand or with automated machinery for increased productivity and labor savings.

SG PolyMask is the only manufacturer to offer Cohesive single face, film, paper, linerboard, poly laminated paper, bubble and foam. Each product is custom made to your requirements and manufactured in the USA!

CUSTOMER PROMISE:

Pregis is focused on **identifying and solving customers' unique protective packaging needs**. That means the right material for the right application. It's a consultative approach to using the world's best protective packaging solutions to deliver:

- Product Protection - Reduced Damage
- Customer focused solutions
- Operational excellence
- Best total cost-in-use
- Sustainable solutions
- Positive brand image & customer experience
