

Great news! Pregis acquired 3M's temporary protective films business, commonly known as PolyMask. This includes the Conover, NC manufacturing facility and existing product portfolio. The business will be merged with Pregis' Surface Guard protective films division. Together these 2 ISO certified manufacturing facilities will be marketed under the name **SG PolyMask**.

Are you a current 3M Customer that is new to SG PolyMask?

Welcome! We look forward to developing a long-lasting partnership with you. We appreciate your patience as we begin this new venture together.

Here's some more information that you may find helpful:

- All products remain available as before; manufactured at the same facilities as before by the same team of dedicated specialists. All technical product specifications remain unchanged which means there is no need to re-qualify any products.
- All item numbers remain unchanged. If there are changes down the road, an SG PolyMask Sales or Customer Service representative will work directly with you to ensure no gaps in service or performance.
- Over the past few months, 3M and SG PolyMask have been working hard to ensure a smooth transition. As of January 31, 2017 3M has transitioned all order processing and administration over to SG PolyMask customer service.
- Products outside the US will be available through a network of specialized and highly skilled distribution partners, many of which have a full set of converting capabilities to tailor products to your unique requirements.
- Beginning February 1, 2017 you will place orders with our distribution partner in your country. For information on the global network and the distribution partner in your country, please contact us for more information.

Who do I contact with questions?

We have a dedicated team of technical sales people available to locally support customers within the US. In addition, you can contact the SG PolyMask Customer Service group with any questions.

sgpolymaskinfo@pregis.com or call 331-425-6300.

If you are located outside of the US, please contact your regional representative:
