

## **AIR-KRAFT® RENEW™** **BUBBLE-LINED/KRAFT MAILER**

Air-Kraft Renew mailers offer the same performance advantages with added environmental sensitivity. Air-Kraft Renew mailers are lined with Pregis' Renew air cushioning containing 25% recycled pre-consumer raw material content. Contributes to raw material preservation which lessens the impact on the environment.

- 25% pre-consumer recycled content.
- Reduced weight of the total package through the use of air filled bubbles on the inside and high-quality kraft paper on the outside.
- Offer very high BTU fuel content for communities where waste-to-energy programs are available.
- Printed Air-Kraft mailers use water based inks as opposed to solvent-based options.
