PANTA-PAK® INDUSTRIAL SEPARATOR TRAYS VALUE PROPOSITION

Panta-Pak trays are ideal for separating parts in an industrial setting.

Thermoformed from high strength film, Panta-Pak trays have molded cup shapes designed to hold items in a secure and aesthetic package. These molded trays require no tray set-up like cardboard trays. The plastic tray is durable enough for reuse and return packing.

Panta-Pak trays come in a spectrum of colors. Color can be a useful tool for coding parts in industrial applications, for example: Green colored trays can visually signal "good" product, Red colored trays can visually signal "returned" or "rejected" product.

Features	Benefits
Individual compartments keep items apart	Finished or treated products don't touch
Manufactured from high strength plastic	Interior surface of cavities smoother than other materials
Multiple cavities per tray	Holds products in place during production and/or shipping
Variety of film colors - Green, Red, Black, etc	Tray colors can compliment operational efficiency
Reusable plastic tray, in some applications	Cost savings from multiple uses.

STOCK TRAYS FOR INDUSTRIAL APPLICATIONS:

Tray name	Cavity count	Cavity diameter	Tray colors	Case count	Case weight	Cases per pallet
LA75	75	1 1/16"	Green, Red, Black	500	28 lbs.	48
LA70	70	1 3/4"	Green, Red, Black	500	28 lbs.	48
LA63	63	1 15/16"	Green, Red, Black	500	28 lbs.	48
LA48	48	2 1/4"	Green, Red, Black	500	28 lbs.	48
PX10791	40	1 x 4"	Green	500	28 lbs.	48
